Re: Informational Request – Restriction of Hazardous Substances(RoHS 1 & RoHS 2)

We certify, based on the information provided by our original wire rod supplier and to the best of our knowledge, that the Stainless Steel Wires supplied by us do not contain significant levels of Lead, Mercury, Cadmium and Hexavalent Chromium, and there is no intentional addition of these hazardous elements.

Furthermore, our products do not contain lead, mercury, cadmium, hexavalent chromium, PBB, PBDE, in excess of the threshold levels provided in the Directive 2002/95/EC (RoHS 1) & Directive 2011/65/EU (RoHS 2) and otherwise qualify for an exemption from the Directive's general prohibition. The level of these undesirable elements is as follows :

List of prohibited substances with controlled values

Lead (Pb)	1000 ppm max.
Cadmium (Cd)	100 ppm max.
Mercury (Hg)	1000 ppm max.
Hexavalent Chromium (Cr+6)	1000 ppm max.
PBB	1000 ppm max.
PBDE	1000 ppm max.

If you need any further assistance, please let us know.

Yours truly,

For Raajratna Metal Industries Limited.
