

Quality Policy

Effective Date: 01-02-2019

“Raajratna Metal Industries Ltd.” is committed to achieve maximum customer satisfaction by delivering Stainless Steel Spring Wires which are Consistent, Reliable and Cost effective within the stipulated time; while Conforming to customer needs, expectations and application of Automotive Quality Management Systems.

We will achieve this by:

- Effective utilization of 5M methodology to identify causes of risks, inefficiency, poor quality and problems in business and manufacturing processes
- Fostering a team approach to defect prevention and problem solving
- Developing and Achieving Quality Improvement Goals.
- Using only Selected, Approved and/or Certified Suppliers
- Continually improving our Systems, Products, Procedures and Processes based on Analysis of Data through team participation and supervision.
- Efficient Management of our resources and providing a safe work environment to our employees
